Portfolio: <https://yashdhoot16.github.io/PersonalPortfolio-yashdhoot/>

## OBJECTIVE

A results-driven **Software Engineer** with over two years of hands-on proficiency in **Full Stack Java Development**. Proficient in **Java, Spring Boot, RESTful web services, SQL, JPA (ORM), and ReactJS**, with a strong focus on developing secure, high-performance solutions. Passionate about leveraging technical expertise and problem-solving skills to drive innovation, optimize processes, and contribute to organizational success. Adept at collaborating with cross-functional teams to deliver impactful and user-centric applications.

## EDUCATION

- **B.Tech in Computer Science and Engineering**  
SSIEMS, Parbhani (2018 - 2022) **CGPA: 9.03**
- **Higher Secondary Certificate (HSC)**  
Sharda Mahavidyalaya, Parbhani (2017 - 2018) **Percentage: 75.08%**
- **Secondary School Certificate (SSC)**  
Sharda Vidyalaya, Parbhani (2016 - 2017) **Percentage: 87%**

## SKILLS

- **Programming Languages:** Java, JavaScript, SQL
- **Web Technologies:** HTML, CSS, JSP, Servlet, ReactJS, Thymeleaf
- **Frameworks:** Spring Boot, React.js, Hibernate(ORM), Spring Data JPA, JUnit.
- **Tools & Version Control:** Apache Tomcat, Maven, GitHub, Git
- **Databases:** MySQL, JDBC
- **Platforms:** Docker, Microsoft Azure, AWS
- **Operating Systems:** Linux, Windows
- **Other Technical:** Networking Protocols, ADDS, VMWare
- **Functional:** IT audit, Logical Segregation, SOX
- **Behavioural:** Communication skills, Teamwork, Creative Thinking, Collaboration, Problem-Solving.

## PROFESSIONAL BACKGROUND

### Software Engineer

**Capgemini Technology Services India Pvt. Ltd.** (Nov 2022 - Present)

Navi Mumbai, Maharashtra

(**Tax Filling Website** | Java, Spring Boot, RESTful web services, Spring Data JPA(ORM) & ReactJS)

- Partnered with design and development team to build a scalable and well-structured Tax Filing Website using Java-based technologies.
- Designed and integrated a robust architecture that allows users to input financial details, calculate tax obligations, and submit returns efficiently. The project is currently in its Pre-launch phase.
- Developed a dynamic tax form generator, enabling users to seamlessly upload documents and automate tax form creation based on financial inputs, enhancing user experience and accuracy and streamlining the tax filing process.
- Contributed to requirements analysis, high-level and low-level design, and complex code development, upholding seamless feature integration and system performance optimization.
- Participated in code reviews, maintaining high coding standards and ensuring adherence to best practices for maintainability and scalability.

- Engaged in 100+ Agile ceremonies (stand-ups, sprints, and retrospectives), collaborating with cross-functional teams and receiving mentorship from senior developers to enhance coordination and delivery of assignment.

## PERSONAL ENDEAVOR

### Blog Web Application

**Technologies:** Java, Spring Boot, RESTful Web Services, Spring Data JPA, Spring Security, JWT, ReactJS, CSS

- Created a full-stack Blog web application with user authorization and role-based access control using JWT. The system enables users to register, log in, and perform CRUD operations on blog posts and comments.
- Configured secure login and registration with JWT-based authentication. Only authenticated users can create, update, and delete posts and comments.
- Enforced unique email and password validation during registration. Logged in users can create, update, and delete posts, comments under various categories.
- Architected APIs to handle secure access and CRUD operations.
- Built UI components using ReactJS, with API integration for seamless interaction using axios library.

### E-Commerce Website

**Technologies:** JSP, Servlets, HTML, CSS, Java, MySQL

- Implemented a responsive e-commerce website like Flipkart, allowing users to browse products by category, add items to a cart, and complete purchases after logging in.
- Embedded secure user credential validation with email/password login and provided a vast product catalog categorized by electronics, fashion, home appliances, etc.
- Established shopping cart functionality, allowing users to add, view, and proceed to checkout with secure payment options.
- Structured the interface using JSP, HTML and CSS for a user-friendly environment and used MySQL for storing user details, product information, and order history.

## CERTIFICATIONS

- Full Stack Java Web Developer (Udemy Certified)
- Azure Administrator Associate AZ-104 (Microsoft Certified)
- Getting Started with Docker (Pluralsight Certified)
- AWS Certified Developer - Associate (DVA-C02) (Pluralsight Certified)

## INTERESTS AND HOBBIES

- **Trekking:** Enthusiastic trekker, fostering physical wellness and outdoor exploration.
- **Traveling:** Passionate about discovering new cultures and landscapes.

## ADDITIONAL INFORMATION

- **Languages:** Hindi (Native), English (Proficient), Marathi (Proficient)
- **Availability:** Available to relocate
